The Result on Governor. The full vote in this city vesterday, if, as we: believe, the 8th Ward return is correct, was McGraw 5,920-being 1,705 for Randull, and 4,215 for Cross—the majority of the latter being 2,510.— Buchanan's majority last fall was was 3,161;

showing a gain of 751 for our side. We think the majority for Cross in this coun will be about 3,300, being a Republican gain of about 1,000.

In some localities claewhere, we lose, and in some we gain. We see no reseou for apprecien ding any very serious loss from the Republican majority in our State. The figures from Rock, Walworth, Dane, Jefferson, and Dodge counties look well. Rock, particularly, has covered herself with glory.

We hear but few returns from the Assembly districts, and they look favorable for a Republican majority in the Assembly, while we have doubtless a sure thing in the Senate.

Well Done for Lake, Oak Creek and Franklin.

Contrary to all expectations, the south cas district of this county has elected our smunch Republican friend, ORLANDO ELLSWORTH, to the Assembly! giving us one Republican member from this county. The vote for Mr. Elisworth is 546, and for White, regular democrat, 279,majority 167. There was hard work done in that district, and

From the N. Unburg, Oct. of:

A most disgraceful scene occurred in the vestibute of the City Hall yesterday; a brund fight which resulted, to all appearance, in de floring the murder. During the last two or three weeks the City Hall has been besieged by a gang of rowdy politicians who have filled the balls at dront stepes, and even thronged the Park in the tear of the building. On account of some old political jealousies, an old grudge has long existed between Conners and Donovan, and they no sooner met yesterday than their old quarrel commenced. In a few minutes they were in a furious fight. It is said that Conners was knocked down by a gaug of rowdies, hadded by Donovan, and beaten in a most barbarous manner. The unfortunate man finally succeeded in escaping the fury of his assailants into the County Clerk's office, covered with blood from head to foot. Some of the clerks barred the doors, and Conners proceeded to wash the blood from his person. Here he waited for some time, and finding that he was not seriously injured, concluded to make his escape, and cautiously

Two or three of the rullians, more blood thirstly than the rest, stamped upon his head with their neavy boot heels until his skull was tractured, and he lay motionless upon the floor. Some parties here interfered and drove the ruffians away, but Conners is so frightfully injured that there is scarcely a hope of his recovery. Two or three of the clerks conveyed Conners to the office of Mr. Valentine, where his wounds were temporarily dressed by a surgeon, after which the unfortunate man was conveyed in a cardiage to the New York Hospital.

Mr. Coomb's Reply.

MILWAUREE, NOV. 3, 1857. GENTLEMES-Your flattering invitation to perconte the character of "Shylock" at the Metrepolitan Theatre, reached me through the columns of the Wisconsin, last evening. My connection with the stage was but a brief one and as an amateur, some years since, and I somewhat fear that my performance under present disadvantages, would not justify the partiality of my friends. It, however, it would afford them any gratification to witness my representation of one of the master creations of Shakspeare, I know no reason why I should not make the attempt to give it. I have also a strong inducement to do so in the hope that it may add some little attraction to the benefit of my friend, Mr. Johnson. whose superior merit in his profession and protructed ill health, justly entitle him to the over. flowing patronage of the Milwankee public.

I therefore cheerfully accede to your request and give my services for Mr. Johnson's benefit. 3 Very respectfully, М. В. Соомва. To George H. Walker, Nelson Cross, and others.

WEDNESDAY MORNING, NOV. 4. The Last Drive). The American of yesterday morning exhaust

ed itself in the utterance of blackguardism against the Republican candidates. It even had the assurance to appeal to the "women of Milwaukee with such trash as the following : Would you not shudder and start back in abhorrance at seeing them the occupants of your parlor, and your family compelled to be their companious. Even thus does Republicanism

parions. Even thus does Republicanism seek to destroy the distinction between the white and colored races; and if you would save yourself from such disgrace, induce your husbands and sone and brothers to vote for James B.

And this, too, when the same James B. Cross headed the petition to the Legislature asking for frage to the people!

The Kansas Legislature.

As the Republicans have the majority in both branches of the Kansas Legislature, they will un. and doubtedly reject the infamously fraudulent returns from Kickapoo, and give the Free State members from Leavenworth county their scatsthey having received a majority of all the legal woten cast. The Legislature will then stand-.Council-Republicans 12; Democrats 1. Y . Representatives—Republicans 32; Democrat

The infamous character of the Oxford and McGee frauds was such that Walker and Stanton were obliged to reject the returns, but they were no worse than the Kickapoo fraude, committee by Walker's troops under his direction. The Leg. islature will have to deal with these last. It would be too much to expect Walker to do any bing in regard to them.

The Manomin Fraud.

The counties of Sherburn, Anoka and Manomin compose the 25th Senatorial district in Minnesota, and have one Senator and two Representatives. The Republican candidates received 361 votes, and the Democrats 291, in the two former counties, being a Republican majority of 70 votes. But an infamous fraud was perpetra ted at Fridley's farm, (which the Territorial Legis lature has facetiously christened "Manomin County") Here a population numbering, all told, about forty voters, has cast 112 votes, giv ing the Democratic ticket 100 majority. The vote as reported standing, Republican 6, Demo. The actual majority cast did not ex ceed 20, but half the Republican votes were rejected, while the 32 Democratic votes were re turned as 106. By this infamous fraud the Democracy claim to have elected three members of the Legislature.

Something to Glory over.

Assars of the Virginia papers, the Richmond Enquirer and Alexandria Sentinel among others, ware exalting the dignity and worth of their State among their Southern eister States, by proving from the Census, that Virginia owns more slaves than any of the others. It is us if some ricor cripple should bosst of the cause of his impotent lameness—as if some blin I man should glory over his blindness-as if some poor heavily bur dened beast of burden should rejoice over that which oppresses and galls him. But the fact is apparent. Virginia has a right to claim the nor of owning the greatest number of slaves. The census of 1850 furnishes the following table

Mr. SEWARD: Let us look backward for instructions. In 1884, by excessive importations, by an unexampled enlargement of credits, we had brought on great fiveal umbarassments. Property of every kind was depreciated; everybody wanted relief boans; credit was paralyzed. The Bank of the United States exerted faself and gave reflet; the crisis seemed to have passed. Importations were immediately rearmed; credit was again expanded. Wusat rose to two dollars per busing, prices of all descriptions of property. were infland. The relief fobtained was only temporary. The embarrassments of 1834 coursed in 1837, aggravaged tenfold. And true came that bearule-convulsion which carried discress and ruin thompsont this broad land—discress and ruin from which we have required for the state of the course of the twenty years to recover. Sir, we, in 1864, have just passed through the premonitory symptome of a crushing pressure, which is to come on in 1867, by some year not long therester. Let this not be thought strange. It is nearly twenty years since the last revulsion. Commercial revalidate come oute in twenty years. The dramataness of out condition correspond exactly with our condition previous to the last evaluation. Government them reduced to stimulate producion by a tariff of protection, and on the contrary stimulated importation. It went on to the bitter

I grant that these contributions may dealy a countercial revulsion for some time; and may modify and break its force when it shall neverome. But they can neither postpone it udefinitely, no can they wrat its force so that it will heave the country harmless. What will be the limits of the influence of those contribuions upon commercial revulsions, is mare spec lation. After: the revision of 1247, produced by excessive importations, Government returned to a system of protection in 1842 and so restored the prosperity of the country. We shall feture to the same to the to the desire for the country in the present case. I think sir, that the restoration of the business of rail road building to a healthy state requires us either to leave it to work out its own cure, or else to adopt a remedy very different from wha is here proposed—a remedy which will stimulate production of the raw material and of fabrics by manufacture. Anything short of this will fall to give any tone to the general financial system of the country, now so much deranged. The troubles with which we are contending arose from the country in controller. The troubles with which we are contending arose from the country in controller. The troubles with which we are contending arose from the country in controller. The troubles with which we are contending arose from the country in controller. excessive importations. The project before us tends to reduce duties, and so to encourage and alimulate imports still more. It is a lever of which we are sick. You propose to acd fuel to

which we are is constaining us.

Sir, will the rail road companies be less embarrassed three years hence than they are now?
Will they be sounder and better able to paythen
than now? Is anything more certain than it is,
that, if you stimulate a lever, the sufferer will ultimately be exhausted? If by this process the
rail road companies are pushed into deeper and rail road companies are pushed into deeper an ave failed. Then you must renew and extend he credit for a longer period, or remit the duties

But relief laws, always objectiousble by reason of their very nature, are usually objectionable when they are partial and discriminating. Other when they are partial and obscriminating. Other branches of industry are embarraised not less than the rail road interest. Such is the case, especially, with the woollen interest and the iron interest. They will come to you for rollef, also; indeed, they are here now, importuning you for rollef. Will you extend it to them? No; for that tovolves the necessity of raising duties, including requiring or civing a good of reach of reaction or civing a good for the necessity of raising duties, inthat involves the necessity of raising duties, needs of remitting, or giving a credit for them.—
But these are as important and as meritárious as the rail Toad Interest. They create wealth by converting ultimproved resortes into capital, white rai road companies create no wealth, but only favor its creation. I am not infinical to rail road enterprises; throughout my whole public life I may be avored them, and I whate now the suffering of these who less come here to use this ing of those who have come here to urge this

But I cathot go for such a discrimination as this in their havo. It is actually loaning them additional capital. The miners and forgers of thou in New Jersey, New York, Pennsylvania, and irginia, want more capital also. Capital is deringing wait note capture and, explore a capture are ranged in its flow through all the channels of industry and trace. It avoids now the railroad builder, and the wool manufacturer, and the miner and the manufacturer of iron. You seek by this bill to direct it into the railroad channel again. But in just the same degree you would divert it from the other channels. Other interests comfrom the other channels from the other channels of their interests com-platin, and justic complete, that not only all the omograssments of railroad enterprises, but also all their own, result from too much partiality having been already exercised by Legislatures, State and National, roward railroad enterprises The usury laws, maintained everywhere with patched a messenger for our common a form additional hody guard.

Since then Mr. F. Hourson, 201-16-1aw to Mr. B., has, with the assistance of many of the people of Door county, been searching the shore and the woods without success. A reward of \$800 has been offered by the city of Kenosha for the recovery of the body and the apprehension of the murderers, should be have met with foul play.—The whole matter is still involved in the most production of the most still and the same production. The whole matter is still involved in the most prefound mystery,—whether he has been nurdered or met with any accident in the woods, is a question yet to be solved. He was known to have had considerable money about him to enter lands which he was then going to select, but this knowledge, it is believed, was confined to but very few of his friends.

Mr. Bernour was widely known in this region, as being hear councided with Garnage will

ar. Berificht was wiedly known in this region, as having been counceted with Gampurg's mill at Pensaukee, and for the two last years has had charge of Baznier's mill on Stuggeon Bay. Since. Mr. Routson left, the search in the woods has been continued without success, but all here sill been tourines of the bornes of the bas been murdered, the perpetrators of the hornible crime brought to justice.
